Notice of Possible Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed over the prior art.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or render obvious the combination, cooperation and interaction that applicant claimed such as a transceiver (400) comprising:

a) a release mechanism (450) having a locking member (460) rotatably connected to a housing (410), the locking member including a lever (462) extending from a front wall (411) of the housing and an engaging portion (465), the locking member is arranged so that when the lever is rotated into a first position (figures 7A-B), the lever blocks at least a portion of a receptacle (412) of the housing to prevent insertion of a fiber optic connector (190) and the engaging portion is in an unlocked position, and when the lever is rotated in to a second position (figures 8A-B), the fiber optic connector is freely insertable into the receptacle and the locking member is in a locked position, as recited with other limitations in claim 1.

b) a release mechanism (450) having a lever (462) mounted on a housing and extending from a front wall (411) of the housing, a cam (464) having a contact structure (465) and connected to the lever and mounted in a recess (475) of a lower wall (414) of the housing, the lever and cam are arranged so that manual rotation of the lever from a first position (figures 7A-B) to a second position (figures 8A-B) causes the contact structure of the cam to protrude from

Art Unit: 2839

the lower wall, and rotation of the lever from the second position to the first position causes the contact structure to retract into the recess, as recited with other limitations in claim 5.

c) a locking member (460) having a shaft (466) rotatably coupled to a snap-coupling structure (470) formed in a lower wall (414) of a housing (410), a lever (462) extending from a front wall (411) of the housing, and an engaging portion (464), wherein rotation of the engaging portion into a locked position (figures 8A-B) and unlocked position (figures 7A-B), as recited with other limitations in claims 12 and 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Austin et al. (US 6,186,670), Halbach et al. (US 6,422,763), Williams (US 4,779,950), Li et al. (US 6,406,317), Flickinger et al. (US 6,178,096), Hwang (6,434,015) and Peterson et al. (US 6,430,053) shows the alternative design of the connectors with locking mechanisms.
